PROFESSIONAL SUMMARY

A motivated and analytical recent graduate with a BA in Economics & Politics from University College Dublin, currently pursuing an MSc in Business Analytics at Dublin City University. Deeply interested in data analytics, cybersecurity, and the intersection of technology and business. Multilingual (Russian, English, French) with strong technical foundations in Python, SQL, and Excel, complemented by hands-on professional experience in security operations. Seeking a graduate or analyst role where I can apply data-driven thinking to real-world problems.

EDUCATION

MSc in Business Analytics · Dublin City University

2024 – Present

- ▶ Developing advanced skills in data analytics, machine learning, and business intelligence.
- ▶ Coursework includes statistical modelling, data visualisation, Python programming, and SQL database management.
